Panel Lights & Rocker Switches

All Packaged One Per Pack - Consult Price Sheet For Bulk Packaging

**SPST**: Single Pole, Single Throw switches control a single wire circuit with two positions Off - ON.

**SMDT**: Single Pole, Double Throw switches control two single wire circuits permitting only one circuit to be energized at a time. Can be two positions ON - ON or three positions ON - OFF - ON.

**DPST**: Double Pole, Single Throw switches control two circuits simultaneously. Circuits are ON at the same time, and OFF at the same time.

**DPDT**: Double Pole, Double Throw switches control four circuits, permitting only two circuits to be energized at a time. Can be two positions ON - ON or three positions ON - OFF - ON.
